

# Guide for POVCAM clip import on Glass Valley EDIUS 8.51

The screenshot shows the EDIUS 8.51 Source Browser interface. A red circle with the number '1' is positioned over the 'Mync' folder in the left-hand pane. A blue callout box points to this folder with the text: "Directly from camera SD card, or From Mync which clips are already registered." The main pane displays a list of video clips under the folder 'GV Browser/All Clips (7/7)'. A red circle with the number '2' is positioned over the context menu options 'Add to Bin' and 'Add and Transfer to Bin'. A blue callout box points to these options with the text: "Right-click on clips and select 'Add to Bin' or 'Add and Transfer to Bin'." A red arrow points from the 'Add and Transfer to Bin' option to the first clip in the list. A red box at the bottom of the interface is labeled 'Source Browser'.

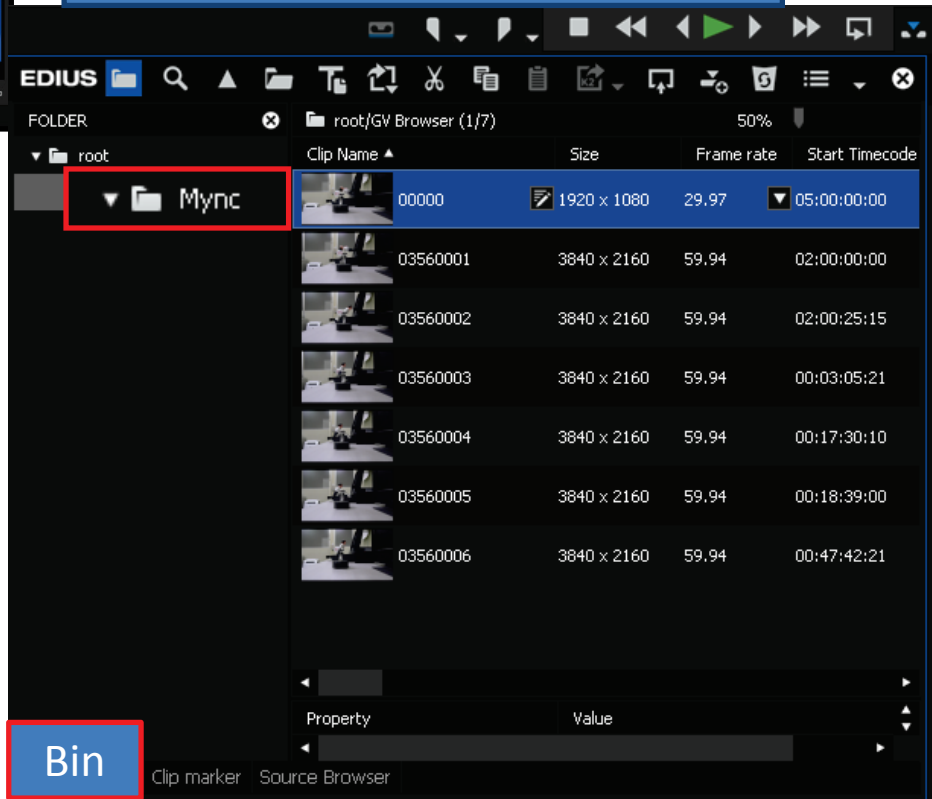

Clip Name	Type	Duration	Vid
00000	Video	00:00:19:15	H.264/A
03560001	Video	00:00:25:15	H.264/A
03560002	Video	00:00:10:15	H.264/A
03560003	Video	00:00:13:00	H.264/A
03560004	Video	00:00:57:15	H.264/A
03560005	Video	00:00:18:00	H.264/AVC
03560006	Video	00:00:03:00	H.264/AVC

# Guide for POVCAM clip import on Glass Valley EDIUS 8.51

3

Clips are now imported into a bin.

**Note:**  
In the case of MP4 file-spanned clip, please do the following method to put on a sequence for the proper audio playback at the spanned portion.

- 1) Line clips in order of playback in the bin.
- 2) Select all the clips.
- 3) Right-click and do "Set as Sequence".
- 4) Clips are unified.

Clip Name	Size	Frame rate	Start Timecode
01260001	1920 x 1080	29.97	05:00:00:00
01260002	1920 x 1080	29.97	05:00:00:00
01260003	1920 x 1080	29.97	05:00:00:00
