

# Guide for UX Series clip import on Avid Media Composer 8.6.5

## Source Browser

The screenshot displays the Source Browser interface in Avid Media Composer 8.6.5. The left sidebar shows a folder tree with 'CAM\_SD' expanded to 'DCIM', and 'PRIVATE' expanded to 'STREAM'. The main pane shows a list of clips, with '03080001.MOV' selected. A 'Bin' window is open, showing the clip '03080001' with a duration of 11:13, linked to the 'CAM\_SD' drive. The 'Source Browser Settings' at the bottom show 'Double click to' set to 'Link or Import'. The 'Link' button is highlighted in red.

**Double click clips to register to a bin.**

**Select DCIM folder for MOV clips.**

**Select STREAM folder in PRIVATE folder for AVCHD clips.**

Name	Duration	Drive	IN-OUT	Mark IN
03080001	11:13	CAM_SD		

Source Browser Settings

Double click to **Link or Import**

Close Source Browser after Link or Import

Clear Source Monitor Upon Closing Source Browser

**Link**  Import

Target Bin: 1080-50-0111 Bin
