

# Guide for AG-CX350 clip import from SD,P2 card on (Win) EDIUS Workgroup 9 Ver. 9.51

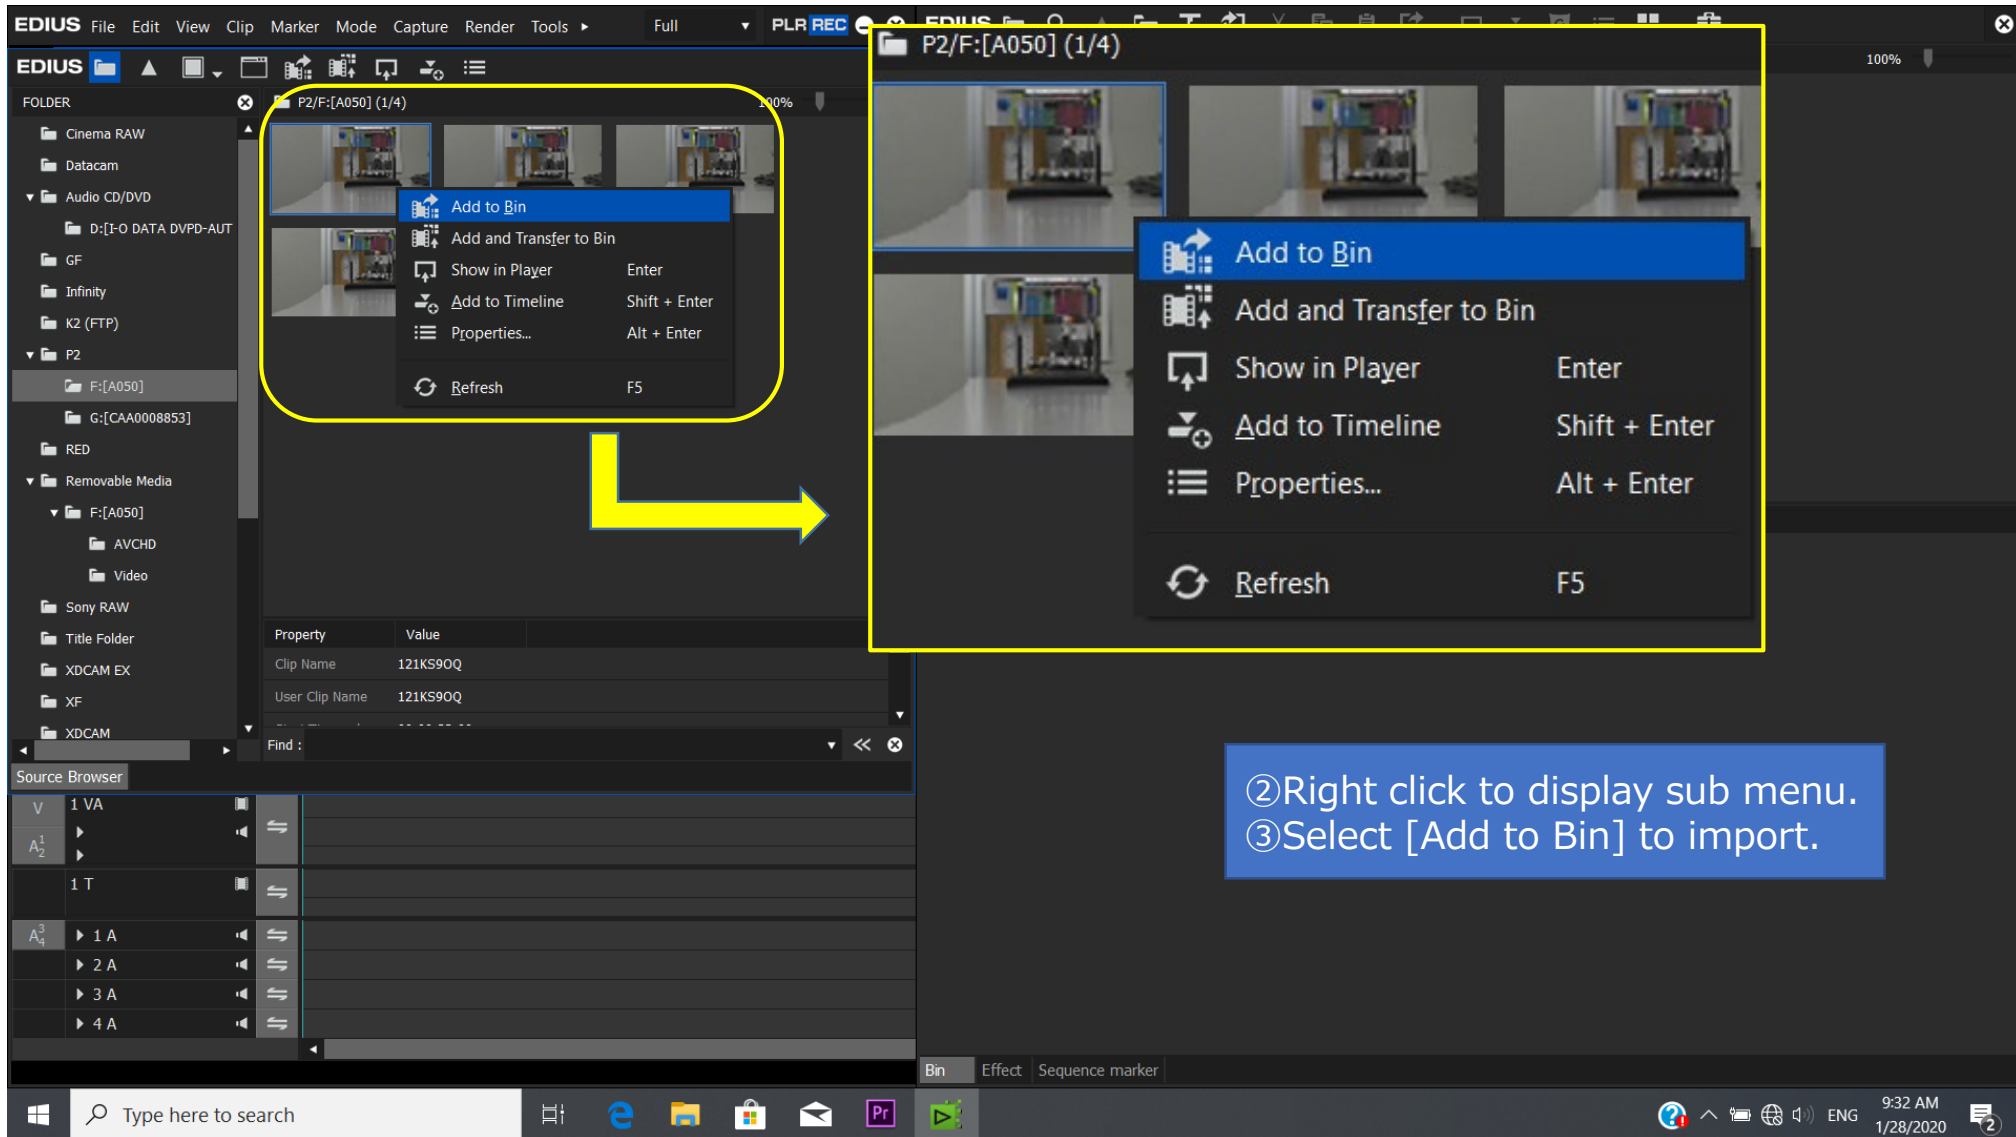

The screenshot shows the EDIUS Source Browser interface. On the left, a folder tree is visible with 'G:[CAA0008853]' selected. A yellow box highlights this tree. A yellow arrow points from the Source Browser to a larger, expanded view of the folder structure on the right, also highlighted with a yellow box. In this expanded view, the 'P2' folder is highlighted with a green box, and 'Removable Media' is highlighted with a white box. A blue text box on the right provides instructions for importing different file formats.

**<Import P2>**  
 ① Select [P2]¥[drive name] on Source Browser to display thumbnail.

**<Import AVCHD>**  
 ① Select [Removable Media]¥[drive name]¥[AVCHD] on Source Browser to display thumbnail.

**<Import MOV>**  
 ① Select [Removable Media]¥[drive name]¥[Video] on Source Browser to display thumbnail.

# Guide for AG-CX350 clip import from SD,P2 card on (Win) EDIUS Workgroup 9 Ver. 9.51

The screenshot shows the EDIUS Workgroup 9.51 interface. The Source Browser on the left displays a folder structure for a P2 card, with 'P2/F:[A050]' selected. A context menu is open over the selected folder, and a sub-menu is displayed over the 'P2/F:[A050] (1/4)' clip. A yellow box highlights the 'Add to Bin' option in the sub-menu. A yellow arrow points from the context menu to the 'Add to Bin' option in the sub-menu. A blue box contains instructions: '2) Right click to display sub menu. 3) Select [Add to Bin] to import.'

②Right click to display sub menu.  
③Select [Add to Bin] to import.
