

# AK-MSU935A

## Master Setup Unit (MSU)

With a large LCD control panel, the MSU can adjust all of the camera's parameters, serving up to 12 camera systems.

- Master control of precise camera settings for the entire camera system (up to 12 camera systems)
- Image and waveform monitor are selectable
- Large-scale (16-cm/6.3-inch) LCD display
- SD Memory Card slot for storing/retrieving three user references, eight scene files, and sixteen lens files

\* Optional AC adaptor is required.
