

Box-style Camera Application Example Indoor Sports

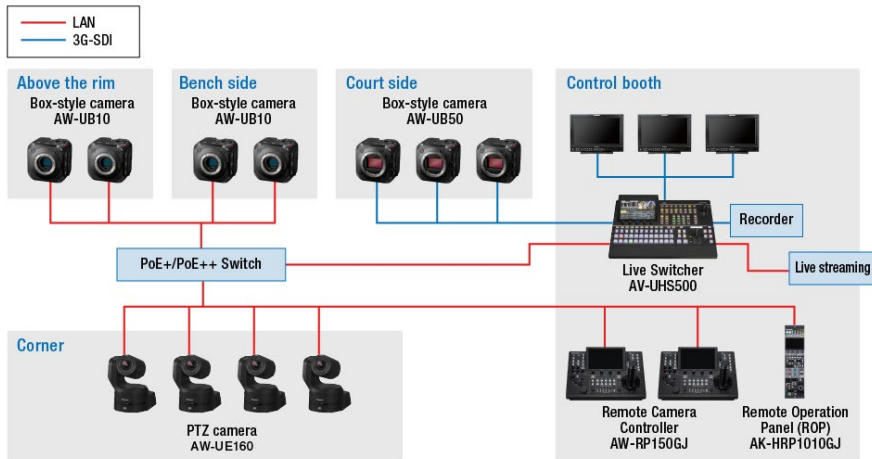

By taking advantage of the compact housing, the system can express a wide range of tension, dynamism, and the human drama of sports.

Production and Effects

By using a compact, easy-to-install box-style camera, you can capture not only the flow of the game and scoring scenes, as well as a wide range of tension, dynamism, and the human drama of the sport.

It can also be used to create exciting highlight images, such as impressive plays from above the rim, players fist pumping after scoring and spectators celebrating.

System Configuration Diagram

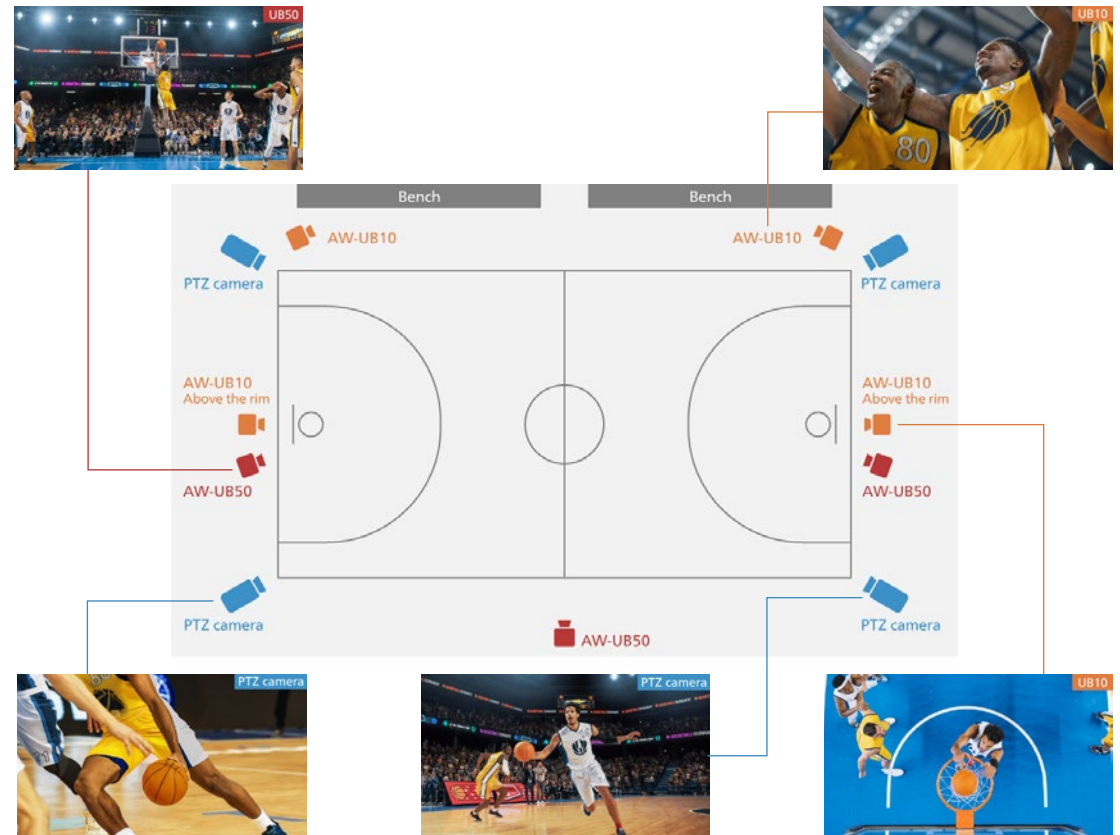

AW-UB50/UB10 + PTZ Camera

Equipment Configuration and Installation Location

* The image is for illustrative purposes only.

AW-UB50 x 3

One overhead camera provides a wide shot, while two additional cameras behind the rim capture half-court overhead views.

AW-UB10 x 4

Two cameras mounted on the backboard capture close-up scoring shots, while two more cameras cover each team bench.

PTZ Camera x 4

The action is shot to follow the flow of the ball, using four eye-level cameras positioned around the court.
