

Guide for AG-CX10 clip import on –from SD,P2 card– (Mac) DaVinci Resolve Ver.16.1

The screenshot shows the DaVinci Resolve 16.1 interface. The Media Storage page is active, displaying a folder tree on the left. A yellow box highlights the 'AVCLIP' folder under the 'A050' drive. A yellow arrow points from the 'AVCLIP' folder to a blue callout box. The blue callout box contains the following text:

<Import P2(OP-1b)>

- ① Select a P2 card on Media Page.
- ② Thumbnails are displayed by selecting [CONTENTS]¥[AVCLIP] folder.
- ③ Select clips and import them by drag and drop into a bin.

An orange callout box at the bottom right contains the text: "Import by drag and drop clips into a bin." A white arrow points from the blue callout box to this orange callout box.

Guide for AG-CX10 clip import on –from SD,P2 card– (Mac) DaVinci Resolve Ver.16.1

The screenshot displays the DaVinci Resolve 16.1 interface. The Media Storage page is active, showing a list of storage locations on the left and a grid of clips in the center. A yellow box highlights the Media Storage sidebar, and a yellow arrow points to a zoomed-in view of the sidebar. In this view, the storage location 'CAA0008853' is selected, and a clip named '0182TU.MXF' is highlighted with a red box. A blue callout box provides instructions for importing P2 clips, and an orange callout box at the bottom right states 'Import by drag and drop clips into a bin.'
